

4260 El Camino Real - Roof Color

We looked at nearby buildings when choosing a color for 4260 El Camino Real roof. We found that if you exclude the flat topped buildings, the most common roof color is a reddish color ranging from red through reddish brown to an orange brown. The large building next door, Hotel Cabana, has a red roof. The other adjacent building is going to be replaced by a five story hotel with a flat roof. Next to the “coming new hotel” is the Palo Alto Inn which has a reddish brown roof. Next to the Palo Alto Inn is the Sky Ranch which has a red roof. We chose to replace our roof with a red roof.
